Preanesthetic blood testing

Our greatest concern is the wellbeing of your pet. We will perform a physical examination before administering anesthesia. However, disorders of the liver, kidneys, or blood, are not detected unless blood testing is done. Abnormalities of any of these may increase anesthetic risk. Also establishing baseline levels for your pet is important as they age.

For these reasons we highly recommend pre-anesthetic blood screens. The cost is \$65

PLEASE INITIAL: Yes, I want the blood testing _____

No, I am declining blood testing _____

Vaccines

For admittance to the hospital, dogs are required to be up to date on both Distemper/Parvo and Rabies vaccination and cats are required to be up to date on the Upper Respiratory and Rabies vaccinations. This is to maintain their health and reduce the risk of infection for your pet as well as other hospitalized pets and our staff.

Check if required: DHLPP (dogs): _____ Rabies: _____

FVRCCP (cats): _____
